Understanding Connecting Flights with JetBlue Airlines

Connecting flights involve traveling from your origin to your destination with one or more layovers in between. JetBlue Airlines operates one of the largest global networks, making it a popular choice for domestic and international connections. These details are often easier to confirm when you call **+1-866-228-5951** and speak directly with an agent.

Unlike direct flights, connecting itineraries require careful coordination. A small mistake—such as too short a layover or incompatible partner airline schedules—can cause delays or missed flights.
